

## Yarmouth Chapter Report

This is the first year when we can officially say that there is a 'Yarmouth Chapter'!

We held our annual Canada Music Week Recital on November 17, 2018. The number of participants has been slowly but steadily increasing each year and we now have interest being expressed by various community organizations also wishing to take part.

Our students have just come through the season of studio recitals and exams. We have had the privilege of helping some prepare for post-secondary music study and as is likely common in all of the Chapters, our focus continues to be the support and education of music students in general.

We look forward to sharing more events as we grow in the coming years.
